

Name _____

Class _____

Topic		Targets	Before the unit	I have learned this	I have revised this
9Ea	1	Know how good metals and non-metals are at conducting heat and electricity.			
	2	Know which metals are magnetic.			
	3	Know some of the other properties of metals and non-metals.			
	4	Know that different metals have different uses because of their properties.			
9Eb	1	Know what happens when metals and acids react.			
	2	Know how to test for hydrogen safely.			
	3	Know how to write a general word equation for the reaction between a metal and an acid.			
	4	Know how to predict the name of the product formed when a metal and an acid react.			
9Ec	1	Know what happens when rocks and acids react.			
	2	Know how to test for carbon dioxide.			
	3	Know how to write a word equation for the reaction between an acid and a metal carbonate.			
	4	Know how to tell if a chemical reaction has taken place.			
9Ed	1	Know what neutralisation is.			
	2	Know the general word equation for the reaction between an acid and a base.			
	3	Know how to write a word equation for the reaction between an acid and a metal oxide.			
	4	Know that there are many different salts and know some of their uses.
